TRANSFORMATIONAL LECTURE SERIES

THE NET ZERO ENERGY LIFE IN CANADA

Sevag Pogharian, Principal and Founder, Sevag Pogharian Design

Montreal architect Sevag Pogharian is pushing the borders of net zero buildings by creating the Alstonvale Net Zero House, one of the winning projects in Canada Mortgage and Housing Corporation's EQUILIBRIUM™ Sustainable Housing Demonstration Initiative. The Alstonvale Home strives to: generate all the energy required for the household's domestic needs; generate all the energy required for the household's local transportation needs; and integrate homescale agriculture in order to displace the industrial food system and enhance a household's food energy balance.

Sevag Pogharian is principal and founder of Sevag Pogharian Design (SPD), a Montreal-based architectural and general contracting firm specializing in housing. SPD has evolved, since its inception in 1990, from solely an architectural firm to a design-build firm bridging the domains of architecture and construction with the belief that being a builder makes for a better architect and vice versa.

**10.27.10 – Kelowna, BC – Rotary Centre for the Arts
Mary Irwin Theatre, 421 Cawston Ave.**

Lecture runs from 5:30 to 7:00 pm; doors open at 5:00 pm.
